ATLANTIC CITY MUNICIPAL UTILITIES AUTHORITY
BOARD OF DIRECTORS MEETING

Wednesday, April 16, 2014

G. Bruce Ward, Executive Director
Linda R. Bazemore, Deputy Executive Director
Garth Moyle, Deputy Executive Director
Fredric L. Bor, Esquire, Board Solicitor
Andrew Weber, Esquire
Claude Smith, Engineer
Stella Johnson, Board Administrator

B E F O R E:

Milton L. Smith, Chairman
Gary L. Hill, Vice Chairman/Secretary
John McGettigan, Treasurer
William Lea
Edmund J. Colanzi

TAKEN BEFORE: JACQUELINE M. ZARRILLO,
Certified Court Reporter of the State of New Jersey,
License No. XI01786, at the ATLANTIC CITY MUNICIPAL
UTILITIES AUTHORITY, 401 North Virginia Avenue,
Atlantic City, New Jersey 08404, commencing
at 10 a.m.

JACQUELINE M. ZARRILLO, CCR

I N D E X

<u>PUBLIC</u>	<u>PAGE</u>
Dr. Mahabub Khan	9

ATLANTIC CITY MUA

1 MR. SMITH: Adequate notice of this
2 meeting has been provided, as required by law, by
3 mailing to the Press the list of the regular
4 scheduled meetings of the Board of Directors,
5 including the notice of the regular meeting scheduled
6 for April 16, 2014 at 401 North Virginia Avenue,
7 conference room, Atlantic City, New Jersey. A copy
8 of said notice was sent to the city clerk and posted.
9 All of the aforesaid complies with Chapter 231 of the
10 laws of 1975, known as the open public meeting law.
11 Roll call?

12 MR. BOR: Mr. Lea?

13 MR. LEA: Here.

14 MR. BOR: Colanzi?

15 MR. COLANZI: Here.

16 MR. BOR: McGettigan?

17 MR. MCGETTIGAN: Here.

18 MR. BOR: Hill?

19 MR. HILL: Here.

20 MR. BOR: Smith?

21 MR. SMITH: Here.

22 MR. BOR: Quorum.

23 I understand the Members of the Board
24 have received the minutes of the March 19, 2014
25 meeting. If no comments, any motions?

ATLANTIC CITY MUA

1 MR. SMITH: Move it.

2 MR. HILL: Second.

3 MR. BOR: Mr. Lea?

4 MR. LEA: Yes.

5 MR. BOR: Colanzi?

6 MR. COLANZI: Yes.

7 MR. BOR: McGettigan?

8 MR. MCGETTIGAN: Yes.

9 MR. BOR: Hill?

10 MR. HILL: Yes.

11 MR. BOR: Smith?

12 MR. SMITH: Yes.

13 MR. BOR: Carries. Executive

14 Director's report.

15 MR. WARD: Good morning, Board of
16 Directors. First, our correspondence from the
17 Chelsea Little League Association. And it's a
18 request for their continuing support for their
19 baseball league program. There is a resolution,
20 4 a (1), before you.

21 MR. SMITH: Let's give them what we've
22 always given them.

23 MR. BOR: Do you want to move it right
24 now?

25 MR. HILL: Sure.

ATLANTIC CITY MUA

1 MR. COLANZI: I would move it.

2 MR. MCGETTIGAN: Second.

3 MR. BOR: Mr. Lea?

4 MR. LEA: Yes.

5 MR. BOR: Colanzi?

6 MR. COLANZI: Yes.

7 MR. BOR: McGettigan?

8 MR. MCGETTIGAN: Yes.

9 MR. BOR: Hill?

10 MR. HILL: Yes.

11 MR. BOR: Smith?

12 MR. SMITH: Yes.

13 MR. MCGETTIGAN: \$3,500?

14 MR. SMITH: What is it, \$3,500?

15 MR. WARD: \$3,500.

16 MR. BOR: For years and years.

17 MR. SMITH: Okay.

18 MR. WARD: Next we have a letter dated
19 March 31st. It's a letter of appreciation and thank
20 you from Rhonda Williams, City Clerk of the City of
21 Atlantic City. She hosted a meeting of the Municipal
22 Clerks Association of New Jersey at Trump Taj Mahal.
23 We were able to provide them with complimentary water
24 bottles.

25 Next we have an announcement of the

ATLANTIC CITY MUA

1 34th Annual Stockton College Scholarship Benefit
2 Gala. It will be held on April the 26th. Are there
3 any Board Members planning to attend?

4 MR. HILL: No, already involved in it,
5 thank you.

6 MR. WARD: Any comment? No, okay.

7 MR. SMITH: Anybody from the MUA wants
8 to go, you know --

9 MR. WARD: Okay. I will be attending.
10 We have, as we've indicated in a prior
11 meeting, we have a relationship with the -- we have a
12 relationship with Richard Stockton College, as well
13 as the Rowan University and the Atlantic City --
14 excuse me, Atlantic County Utility Authority in a
15 research collaborative, and it would be good to
16 continue to stay in touch with them.

17 While I am talking about the research
18 collaborative, on the last juncture there was an
19 effort by Rowan to write a grant for a water sensor
20 unit and what that would be would be a sensor that
21 would be placed or a number of sensors that would be
22 placed in a reservoir, which would be able to, on
23 real time, record data with respect to temperature
24 and certain water conditions, chemical conditions,
25 pH, so forth and so on. The sensors would be able to

ATLANTIC CITY MUA

1 transmit that data both to the colleges for research
2 and also shared with our operators in terms of the
3 heads up if there is an issue with the water.

4 MR. MOYLE: Which reservoir?

5 MR. WARD: If they get the grants, they
6 can put them in both.

7 MR. MOYLE: The lower one is better.

8 MR. WARD: We can help to determine
9 where they go, but again, it's a good research
10 project for their hydrology program as well as the
11 sharing of the information for our operations.

12 Fourth Annual Seashore Gardens 5K Run,
13 April the 27th. Hopefully the weather is nice and I
14 might not run all the way, I might walk a bit.

15 MR. SMITH: Who is sponsoring that,
16 Bruce?

17 MR. WARD: Seashore Gardens.

18 MR. SMITH: Do we participate in that
19 with water or anything?

20 MR. WARD: I didn't see any request.

21 MR. SMITH: If they request it, let's
22 accommodate them.

23 MR. WARD: I know we're low on our
24 water stock now and apparently we are going to be
25 bottling shortly. We're somewhat low on our stock

ATLANTIC CITY MUA

1 here in the warehouse.

2 MR. MOYLE: I thought they were waiting
3 for the new labels.

4 MR. WARD: Okay.

5 MR. SMITH: We got to restock soon.

6 MR. WARD: Yes, we're restocking. Got
7 to have new labels.

8 MR. HILL: I know another agency, the
9 Atlantic County Sheriff's Office is providing water
10 for this run, but thank you.

11 MR. SMITH: Okay, good.

12 MR. WARD: Next the MBCA Scholarship
13 Foundation, April the 29th. And that would be at the
14 Tropicana Casino and Resort at noon. We certainly,
15 as members of our staff, wish to attend and support
16 the MBCA. Are there any Board members that would
17 also be interested?

18 Next, the AtlantiCare Foundation 55
19 Century Club Gala is May the 3rd. This event is at
20 the Borgata Hotel and Casino. And again, if there
21 are any Board Members interested in attending the
22 AtlantiCare Foundation event, please let us know.

23 Moving right along, there is a save
24 the date for a Scholarship Splash for the Atlantic
25 County Institute of Technology. That would be

ATLANTIC CITY MUA

1 located at Clancy's By the Bay in Somers Point, New
2 Jersey on Thursday, May the 22nd.

3 MR. HILL: I'm going to go to that. Do
4 we need to let Stella know in advance, May 22nd?

5 MR. WARD: Yes.

6 MS. JOHNSON: Okay, Gary.

7 MR. WARD: Mr. President, we have a
8 gentleman from the public here. Did we want to
9 acknowledge him and proceed?

10 MR. SMITH: Yes, let's acknowledge him
11 and get him taken care of.

12 MR. WARD: Okay. Mr. Kahn is here on
13 an abatement.

14 MR. BOR: Is he on the agenda?

15 MR. WARD: Yes.

16 MR. BOR: Under eight.

17 MR. HILL: Oh, yeah.

18 MR. WARD: Okay. There is an analysis
19 by Ms. Bazemore that Mr. Kahn is eligible for an
20 abatement. It is unnecessary for him to appear, but
21 at this time the Authority can consider Mr. Kahn's
22 abatement. Ms. Bazemore, any further information?

23 MS. BAZEMORE: His abatement is
24 \$344.15, and it was over a period of three quarters
25 of excess usage.

ATLANTIC CITY MUA

1 MR. HILL: Mr. Kahn, do you have any
2 comments you would like to make?

3 MR. KAHN: No.

4 MR. HILL: I move it.

5 MR. BOR: Want to have Linda comment on
6 (2) and (3)? They're all unnecessary.

7 MR. HILL: Good idea.

8 MR. WARD: Do you want to include all
9 of them?

10 MR. SMITH: Sure.

11 MR. WARD: All unnecessary, all
12 abatements.

13 MR. BOR: Motion would be 8 a (1), (2)
14 and (3), all unnecessary.

15 MR. HILL: Move.

16 MR. MCGETTIGAN: Second.

17 MR. BOR: Mr. Lea?

18 MR. LEA: Yes.

19 MR. BOR: Colanzi?

20 MR. COLANZI: Yes.

21 MR. BOR: McGettigan?

22 MR. MCGETTIGAN: Yes.

23 MR. BOR: Hill?

24 MR. HILL: Yes.

25 MR. BOR: Smith?

ATLANTIC CITY MUA

1 MR. SMITH: Yes.

2 MR. BOR: Carries.

3 MR. WARD: Mr. Kahn, your abatement has
4 been won.

5 MR. KAHN: Thank you. Thank you, have
6 a nice day.

7 MR. WARD: Now we have the financial
8 report. Ms. Bazemore?

9 MS. BAZEMORE: Just one thing I wanted
10 to mention, regarding Tropicana had a faulty meter.
11 I think Garth, and we had brought it to your
12 attention maybe a year or so ago, where consumption
13 had stopped on the meter over ten years, and we went
14 back to when ownership changed at Tropicana and we
15 calculated based on the years of consumption, what's
16 not registered on the meter and what needed to be
17 paid, and we sent a bill in the amount of about
18 250,000. I think it was something like that. So
19 just wanted to inform you we haven't heard anything
20 back from them. But they -- Garth sent
21 correspondence, a couple letters informing them over
22 the couple years, they are well aware of the problem,
23 so we're just assuming that everything is going to go
24 well and they'll pay the bill, so their April bill
25 did have that extra amount in it.

ATLANTIC CITY MUA

1 MR. MOYLE: Over a year.

2 MS. BAZEMORE: In the letter I gave
3 them an opportunity to pay it in a year interest
4 free. It's \$249,278. So they have an option of
5 paying it over a year interest free, but they didn't
6 seem to be interested in that, so I'll keep you
7 posted.

8 MR. MCGETTIGAN: Is there a statute of
9 limitations?

10 MR. BOR: No.

11 MR. SMITH: What company was that?

12 MS. BAZEMORE: Tropicana.

13 MR. BOR: Tropicana owes us a quarter
14 million.

15 MR. SMITH: They're not on the shut off
16 list.

17 MR. WARD: It was a meter issue. It
18 was a meter issue.

19 MS. BAZEMORE: We just sent the bill.

20 MR. SMITH: We're in violation also.

21 MR. BOR: Make sure it's after the
22 event here. They'll pay it.

23 MR. MOYLE: I'll do it.

24 MR. WARD: Any questions, financial
25 report? Okay.

ATLANTIC CITY MUA

1 Shut offs. I had a conversation with
2 Ms. Bazemore. The one item that seems to stick out
3 as a red thumb is the demolition company. They are
4 -- they have been advised through their attorney to
5 write to us with an explanation of their status.
6 They had, perhaps had a meter that was running.

7 MS. BAZEMORE: They had a hydrant meter
8 out for many many years. I don't remember the exact
9 number of years, and we actually, our crew saw them
10 on the hydrant with the meter, had them come in.
11 Turned out that they never returned the meter and we
12 billed them for the number of days and it came up to
13 about 50,000 and it's just been sitting on our books,
14 but he's ready to come back in the city and do
15 business legally, because I'm sure he still has been
16 on our hydrant, so he had his attorney contact us and
17 so they're looking to resolve this. So they're going
18 to put in writing, you know, the number of days that
19 they feel they used the meter and we will take it
20 from there.

21 MR. MOYLE: And we'll double it.

22 MR. HILL: How about Atlantic City
23 Linen?

24 MS. BAZEMORE: They're fine. Their due
25 date is a little further out. They may show up on a

ATLANTIC CITY MUA

1 report, but they have like a ten-day grace or
2 something extra, so they're normally fine.

3 MR. WARD: Okay, okay. The engineering
4 committee met during my vacation absence, so I'm
5 going to let Mr. Smith, staff engineer, would you
6 lead us on the engineering committee meeting and the
7 items?

8 MR. CLAUDE SMITH: Engineering
9 committee met on April 9th, which was Wednesday last
10 week. Probably one of the first things we probably
11 should discuss is the evaluations that we did for the
12 RFQs and RFPs for the annual report and engineering
13 services and also the regular inspections of Doughty
14 and Kuehnle Pond damn. There is a resolution that's
15 in the package, which actually approves two different
16 engineering companies for, of course, two separate
17 engineering contracts.

18 We did the evaluation, which was
19 actually presented for, like Bruce said, he was not
20 there, in regards to the annual engineering report
21 between myself and Garth, and of course engineering
22 committee. We selected Alaimo Group for the amount
23 of \$10,900.

24 MR. WARD: I think you've got Buchart
25 Horn.

ATLANTIC CITY MUA

1 MR. CLAUDE SMITH: I'm sorry, you're
2 correct, it's actually Buchart Horn.

3 MR. HILL: Alaimo for the other one.

4 MR. CLAUDE SMITH: For the amount of
5 \$10,900. And for the inspection of Doughty and
6 Kuehnle Pond damn, Alaimo was actually selected and
7 that was a total of \$5,725, and of course it's in the
8 resolution.

9 Other things were discussed, which
10 we'll probably go into depth, leak detection, Aclara,
11 leak detection system, ASR well, cradle project,
12 2 million gallon elevated storage tank paint, and
13 combined heat and power system. Bruce, this
14 particular portion you can probably talk a little
15 more about because some of the things that were done
16 were some of the things that we're actually
17 implementing or carrying out for the CHP.

18 MR. WARD: Well, the CHP is again a
19 combined heat and power project, which would utilize
20 natural gas at the treatment plant to burn and create
21 energy. That would take us off of the grid in a
22 situation where we would be independent from the
23 grid, producing our own electricity. The excess heat
24 becomes a by-product that is also usable under this
25 system, and we would also connect with Pleasantville

ATLANTIC CITY MUA

1 Leeds Avenue School. Pleasantville Leeds Avenue
2 School is our adjacent neighbor off that property
3 footprint and the off take, as it's called in energy,
4 must be a contiguous neighbor.

5 Now the interesting thing, which has
6 created a lot of buzz in the energy community, as
7 well as some of our stakeholders, is that this
8 becomes a shared service project. It becomes a City
9 of Atlantic City and a Pleasantville project. And
10 that's a buzz word at the State level, that the State
11 has been providing to encourage municipalities to
12 share their services. So what we would end up with
13 under the best scenario, that if there was a blackout
14 or a brownout of power in the grid, the treatment
15 plant would continue to operate and have its own
16 energy.

17 And this is the thrust of the energy
18 community, trying to focus on the damage that was
19 done in Sandy. In Hurricane Sandy in North Jersey
20 when power went out, waste water and water facilities
21 could not continue to operate and waste water was
22 dumped into fresh water and it really created a major
23 public health situation. We would be able to
24 continue to pump water and at the same time
25 Pleasantville would end up having a shelter in a

ATLANTIC CITY MUA

1 blackout which would be functional and operational.
2 We would be able to send energy to Pleasantville so
3 if they had a blackout or a brownout, that would
4 become -- that facility would become their major
5 shelter to house infirm, elderly, so forth and so on
6 because they would always have heat and electricity
7 there.

8 It's similar to what the experience was
9 in the City of Princeton during Sandy. The City of
10 Princeton lost power totally. It was Princeton
11 University that sent its power to the City of
12 Princeton to maintain, you know, life services there.

13 So this is a project that we are
14 involved in with the Board of Public Utilities. We
15 have a number of continued steps to go. The next
16 step that we have to go is we have to get an updated
17 energy audit and those energy audits are provided
18 free of charge by the Board of Public Utilities as
19 well as we have to get the City of Pleasantville to
20 have an energy audit on its Leeds Avenue School.
21 Once we have those pieces in place, we'll know
22 exactly what the energy demand need is and that is
23 factored into the size of the energy plant that would
24 be solicited for in an RFP program.

25 A little later on in the in the agenda

ATLANTIC CITY MUA

1 there is an item under 4 h, James Rutala proposal for
2 an energy consultant. James Rutala has considerable
3 experience in energy, alternative energy in this
4 immediate area. And he also is now under contract
5 for the City of Pleasantville, so we're going to be
6 continuing to speak with him. His proposal is set
7 forth in the agenda. It is a contract that -- we
8 wouldn't sign his contract. We would work with our
9 attorneys to fashion a contract.

10 MR. SMITH: Excuse me, Bruce?

11 MR. WARD: Yes.

12 MR. SMITH: Is this going to lower our
13 electrical rates?

14 MR. WARD: Yes. I'm sorry, if I didn't
15 say that. That's the goal.

16 MR. SMITH: Okay.

17 MR. WARD: The end goal is that we
18 lower and reduce our electric cost and at the same
19 time we become self sustaining with some resilience
20 in terms of major storms.

21 MR. SMITH: Very good.

22 MR. WARD: So that's the CHP project.
23 And during my absence, Mr. Weber went to the DRB
24 conference. Why don't you talk about that? That's
25 all connected to what the policies of the State are.

ATLANTIC CITY MUA

1 MR. WEBER: As a follow-up as to what
2 Mr. Ward just mentioned, the State of New Jersey has
3 made application for its second round of Sandy funds,
4 as you probably read about, and one of the keys to
5 those funds is the backup energy resiliency program
6 that is necessary and, in fact, they -- and I was
7 asked to attend the workshop which was held in
8 Trenton, and fortunately for some of us we could do
9 it through the webinar.

10 And basically what the State is
11 proposing to the federal government is to create a
12 bank. And out of the 200 million, some 20 million of
13 which -- or I should say 200 million of which of the
14 basically or so that they're seeking will be used for
15 this bank. You will then make application to the
16 bank for programs similar to what Mr. Ward was just
17 talking about. And what's interesting is that the
18 number one priority of this program is waste, is
19 water facilities. Because -- and they used Princeton
20 as the example, is when things go down, water stops,
21 and that becomes a real disaster. And so the
22 workshop was basically to seek input from the
23 stakeholders as well as to basically advise us that
24 they're reasonably optimistic that this grant will be
25 forthcoming. It will be either grant, low interest

ATLANTIC CITY MUA

1 loans, or some combination thereof.

2 The interesting part is that you have
3 to have a project that is ready built and able to be
4 completed by 2017, which takes most of the major
5 players out. And additional research I have done
6 indicates that smaller projects, ones that we're sort
7 of focusing attention on, seem to be the kind they're
8 sort of looking for. So there will be additional
9 workshops and additional materials that would be
10 coming in the next couple of months.

11 MR. SMITH: While it's on my mind,
12 you're saying we're running low on water. Didn't we
13 have a contingency plan that we went out and bought
14 water just in case there were -- there was some kind
15 of disaster?

16 MR. WARD: Well, the volume --

17 MR. SMITH: You might not be aware of
18 it, is what I'm saying.

19 MR. WARD: The volume of water that the
20 City would need in a long-occurring power outage is
21 not the kind of water that we would have in storage
22 in any sense of the imagination.

23 MR. SMITH: I know that, but I'm
24 saying, we should have some. I don't care -- what is
25 it, what do we have there now?

ATLANTIC CITY MUA

1 MR. MOYLE: ASR well?

2 MR. SMITH: No, storage.

3 MS. BAZEMORE: When different areas are
4 out of water when we give water, is that what you're
5 referring to?

6 MR. WARD: Are you talking about
7 bottled water?

8 MR. SMITH: Yes. No, I'm not referring
9 to our wells. I'm talking about just in case there
10 is another emergency, we should have enough water to
11 sustain us for a while until we get our supply back
12 up.

13 MR. WARD: Bottled water is probably,
14 and I mean this, bottled water is a small band-aid on
15 a gushing wound if the whole system goes out and we
16 can't pump water from Pleasantville onto the
17 mainland. We have a hospital here, we have casinos.

18 MR. SMITH: You're missing my point,
19 Bruce.

20 MR. WARD: Okay.

21 MR. SMITH: The water that we have
22 stored here now, is it adequate for an emergency?

23 MR. WARD: 72 hours, perhaps.

24 MR. SMITH: Okay, that's --

25 MR. WARD: Limited 72 hours. Is that

ATLANTIC CITY MUA

1 accurate about?

2 MR. MOYLE: On the island what we have?

3 MR. WARD: No, if there is a power
4 shortage, we can go to generator, we probably have 72
5 hours. We would probably put out a notice to please
6 conserve what you have. But again, what we're
7 talking about is comparing to what happened in North
8 Jersey; they were out for a month. We don't have
9 that kind of --

10 MR. SMITH: They worked out something.
11 I forget what it was. They worked out something for
12 getting water. I don't know who, was it the National
13 Guard?

14 MR. WARD: National Guard, yes.

15 MR. WEBER: I think part of the problem
16 was the electricity and that's what this whole
17 program addresses, is the fact that it's not as
18 though there isn't water out there. It's just you
19 can't get it to anybody, so what they're seeking is
20 ways that you can facilitate transporting water to
21 different entities, particular public entities. So
22 the program that Mr. Ward mentioned about
23 Pleasantville would be very high on their priority
24 because it serves two purposes; it serves our
25 purpose, but it also serves the school purpose. And

ATLANTIC CITY MUA

1 so they have a list of schools, hospitals and all
2 kinds of things that they're looking for, and that's
3 the kind of, you know, program that they would like
4 to fund.

5 MR. WARD: Okay. Any further
6 questions?

7 Mr. Smith, on the consumer confidence
8 report.

9 MR. CLAUDE SMITH: The consumer
10 confidence report is a water quality report that the
11 safe drinking water requires that water providers
12 actually provide their customers, big customers and
13 also just regular customers throughout the City. We
14 have completed our consumer confidence report. It is
15 on our website at the moment. We have not started
16 distributing the actual hard copies.

17 Now last year, 2013, they changed the
18 requirements or I shouldn't say changed it, they
19 actually added an option in the requirement of
20 actually distributing the water quality reports. We
21 no longer have to mail them to individual customers.
22 We can actually have the electronic copy on our
23 website and customers are given information through
24 our billing that they can actually access the water
25 quality report. And if someone does need that water

ATLANTIC CITY MUA

1 quality report in a hard copy, you can actually mail
2 that to them. Again, our water quality report is
3 completed and only thing we're waiting for right now
4 is the hard copies for distributions to multifamily
5 locations and throughout the City. They'll do it at
6 the library, city hall, the commerce -- chamber of
7 commerce and several other locations throughout the
8 City.

9 MR. WARD: Questions?

10 Okay. Lead and copper survey testing.

11 MR. CLAUDE SMITH: That's another
12 requirement that we have to do every three years,
13 where we're required to do our lead and copper
14 testing for 2014. Of course we're all aware of Super
15 Storm Sandy and its effects. What this testing
16 actually requires that we request from individuals
17 that are part of our testing family, every three
18 years, we give -- provide them with a liter bottle,
19 they provide us with a liter of water after not
20 running their taps for at least six hours.

21 With this particular year, I'm not
22 certain how we're going to actually fulfill our
23 requirement, because of the fact that I'm not aware
24 of the homes that were a part of the Super Storm
25 Sandy, whether or not they're still occupied. Some

ATLANTIC CITY MUA

1 of them might not be habitable right now, so I
2 wouldn't know exactly how that's going to work out
3 after we start the testing process. We start in the
4 month of June, and we have until September to
5 complete it. And of course we have to provide the
6 results back to the State by December.

7 MR. HILL: Can you get any of those
8 answers through the City? Because I would assume the
9 City would know which homes were effected.

10 MR. CLAUDE SMITH: What I normally do,
11 I send out a letter to each of these particular
12 locations and hopefully get some response back. If
13 not, I personally go out and visit the locations, see
14 whether or not there might be any residential
15 changes.

16 MR. MOYLE: You can check the billing
17 system, if there is any water usage.

18 MR. CLAUDE SMITH: We could do that.
19 We could do that. That's a suggestion I can actually
20 accept. But it's a scenario of doubt in regards to
21 whether or not we still have the same participants.
22 If not, we're going to have to find new participants
23 that fall on that particular tier list set by EPA and
24 hopefully we can actually make this accomplishment.

25 MR. WARD: Any questions?

ATLANTIC CITY MUA

1 Okay. Item g, the FAA Superfund
2 Technical Meeting on March 26th. I attended the
3 meeting along with Anthony Palombi, our assistant
4 manager of treatment, and the FAA has a continuing
5 dialogue with a number of engineering and other
6 professionals with respect to activities that have
7 occurred on the base over the years. They have had
8 all kinds of testing, including burning of caustic
9 materials, there has been fuel that has been leaked,
10 so forth and so on. And no, all of that activity was
11 done prior to the modern concerns with respect to
12 environmental protection.

13 So now this is an ongoing project to
14 monitor the quality of the soil, begin to abate in
15 certain areas where there is a critical need and we
16 are a part of this dialogue because again, our upper
17 reservoir is within the property footprint of the FAA
18 Technical Center. I'm going to continue to stay very
19 very close to this and monitor again our interests,
20 which is of course our upper reservoir, but they have
21 a considerably large number of experts involved in
22 the process and again this is the FAA. They've got,
23 you know, a considerable budget that they've
24 dedicated to this project. But we will continue to
25 monitor to make certain that all of the abatements

JACQUELINE M. ZARRILLO, CCR

ATLANTIC CITY MUA

1 that are necessary to protect our water interests are
2 being followed up on.

3 Under h we spoke with Mr. Rutala as a
4 proposed energy consultant. That would be somewhat
5 down the road. We have a number of other steps
6 before we get to any agreement for his services.

7 We had a -- we were in contact on i for
8 the MUA Vision Plan. We were contacted by the City
9 of Atlantic City human resources director with
10 respect to a development in the City that was covered
11 apparently years ago. City of Atlantic City, in its
12 vision plan, joined in with the MUA and in order to
13 create a larger pool of employees, and at this time,
14 the human resources director indicated that the
15 business administrator might be considering severing
16 off the MUA from the City's vision plan. Now, it's
17 difficult to sort of understand why this is happening
18 now, because in most cases under the purchase of
19 insurance, the larger the pool, you get better rates.
20 But with the State monitoring going on, there may be
21 another consideration that the State should have a
22 separate view of the City itself, and not have a
23 contiguous partner with the MUA on it. So in any
24 case, we are continuing to explore what our best
25 option would be if we are to be severed from that

ATLANTIC CITY MUA

1 plan. We've had --

2 MR. SMITH: Is that in the near future?

3 MR. WARD: It is. It's ongoing and we
4 will again be able to provide the level of services
5 that our unions have in the agreements. We're going
6 to make sure that we remain whole with respect to our
7 plan. But again, this came as a result of certain
8 activities within the City and we're responding to
9 it.

10 Okay. On April the 1st, I attended
11 the First Ward Civic Association and I presented a
12 PowerPoint and sort of a demonstration of what the
13 Water Authority is, what we do, how we service the
14 community, comparison of our rates with other
15 municipalities, answered questions among the
16 residents. I got good feedback and I think the
17 people who attended found it interesting. There is a
18 letter from Libbie Wills, who is the president, and
19 let me tell you, Libbie Wills is a tough cookie.

20 MR. SMITH: Who are you telling?

21 MR. WARD: You get a positive out of
22 Libbie Wills, you must have done something right.

23 MR. SMITH: She's a good person.

24 MR. WARD: Yes, she is, absolutely.

25 As the Board instructs, I mean, I'm

ATLANTIC CITY MUA

1 available to speak with any public -- or excuse me,
2 any civic organization, any meeting group because I
3 think we've got to do better to educate people to let
4 people know what we do and let people know our value.
5 We provide critical service and people just, in many
6 cases, take for granted the value of water in their
7 lives and what it takes for us to deliver. And
8 again, how fortunate we are here in South Jersey to
9 the resource that we have. We keep reading about
10 just up the road in Paulsboro, New Jersey a train
11 derailed and contaminated their water supply and
12 those people up there are starting to feel the
13 effects in terms of the onset of certain diseases and
14 so forth and so on as a result of that water being
15 contaminated.

16 MR. SMITH: That happened about six
17 months ago?

18 MR. WARD: Happened about six months
19 ago and then all of a sudden it's -- they said it's
20 good to go back in.

21 MR. WEBER: Ventnor.

22 MR. WARD: What happened in Ventnor?

23 MR. WEBER: Ventnor had a problem two
24 summers ago.

25 MR. BOR: Sure, pipe broke in the

ATLANTIC CITY MUA

1 waterway.

2 MR. WARD: Whole cities in Texas that
3 have had to close down their water supply is dried
4 up, so I try to make it clear to any civic groups
5 that, you know, we're in a very valuable situation
6 here.

7 MR. SMITH: It's also very good public
8 participation.

9 MR. HILL: Very good.

10 MR. WARD: I'll probably do that the
11 next meeting. I've updated the presentation that
12 I've made with the Board in my first January meeting
13 and I've got many more illustrations and I show
14 pictures of our reservoirs and so forth.

15 MR. BOR: Were you accompanied by the
16 councilman for the First Ward?

17 MR. WARD: Was not present that
18 evening.

19 MR. SMITH: He was probably working.

20 MR. WARD: He was probably working,
21 could have been working.

22 Okay. On April the 4th Mr. Moyle and I
23 met with the Atlantic City Fire Department. We met
24 with a battalion chief, Andrew Mayor -- no, not --
25 Andrew DeMeo, and again, it was a good exchange of

ATLANTIC CITY MUA

1 both the needs on the part of the Authority and
2 training on the part of the fire department with
3 respect to hydrant maintenance. Certain hydrants
4 need to be opened casually and not necessarily slam
5 them open because it creates a, you know, a pressure
6 surge and it, you know, effects our pipes, so forth
7 and so on. We have an open dialogue with the fire
8 department from now on and any needs that they have
9 in terms of understanding what we're doing and back
10 and forth.

11 Moving to 1, we have also a meeting
12 with the city engineer of Atlantic City on street
13 maintenance on April the 7th. We jointly have issues
14 that require us to go into the street, both the City
15 and the MUA. In particular, there was the issue of
16 North Carolina and Mediterranean Avenue. This was a
17 problematic and complex break wherein a pipe of the
18 MUA's had fractured, and at the same time adjacent to
19 it there was a storm water wall belonging to the City
20 that had been compromised. And so the City's
21 position was that the pipe broke first, it leaked
22 water, compromised the storm water. Our position was
23 the pipe had corrosion on the outside, which meant
24 that sewer wall must have broke first and brought
25 water into the area and broke the pipe. So no one

ATLANTIC CITY MUA

1 will ever be able to figure out exactly.

2 But we're at a point where the City has
3 gone on and has expended the \$41,000 to fix the final
4 street opening. That hole was big enough to put a
5 jitney in and they may be coming back to us for
6 contribution on that because I wanted to let
7 everybody know.

8 MR. SMITH: Tell them we'll take it out
9 of the 600,000. I'm only kidding.

10 MR. WARD: I think Garth would agree
11 that we have an excellent relationship with the city
12 engineer. We sometimes have some flare-ups with one
13 of the road inspectors who chases some of our guys
14 around and points fingers at them, but at this time,
15 we're really in good stead with both Paul Jerkins the
16 director of public works and the city engineer, so we
17 should be able to manage through that.

18 I was ill on, I forget what Wednesday
19 it was, it was a Wednesday prior to my going away and
20 I took off the day and stayed home. And when you
21 stay home in the daytime and you got the remote it's
22 painful, so I watched a session of city council. And
23 in the beginning of the meeting when they were
24 talking about committee reports, Councilman Gilliam,
25 who is chair of the development committee, mentioned

ATLANTIC CITY MUA

1 that he had a problem with the MUA because there was
2 a developer who got a letter saying that his
3 connection fee was \$5,000, and Councilman Gilliam was
4 going to take this up with the attorneys and so forth
5 and so on, so I immediately grabbed a tissue, blew my
6 nose and started to get on the phone.

7 What we found out was that there was an
8 individual who is doing a project on North New Jersey
9 Avenue, I think his name is Mr. Casey, and he got
10 what was called a form letter, a former form letter,
11 and the form letter basically says, Welcome, you're
12 coming into the system. It's 5,700 such and such
13 dollars. The guy went ballistic. Instead of calling
14 us, he went into the public domain and we have now
15 number one, gotten our arms around it. I contacted
16 his attorney, who is Brian Callaghan. We
17 straightened it also out with the project engineer,
18 who is Art Ponzio. As it turns out, the water
19 service was already there.

20 The letter was the wrong letter. The
21 guy actually is owed money by the Authority. We have
22 taken that letter totally out of the system. Any
23 letters that go out now will tell people, Welcome, we
24 understand you're going to build. Please come in and
25 talk to us. Bring your plans, come in, speak to

ATLANTIC CITY MUA

1 Mr. Pham if you're residential, speak to Mr. Garth if
2 you are commercial.

3 MR. SMITH: Did you also send something
4 to Councilman Gilliam?

5 MR. WARD: I've texted him and e-mailed
6 him. He hasn't gotten back to me. I've also gotten
7 to Rob Tarver.

8 MR. SMITH: Good, that's exactly --

9 MR. WARD: We've gotten this
10 straightened out.

11 And on this note, I'll give you an idea
12 how we're trying to transition our public relations.
13 Tomorrow there is a groundbreaking and the
14 groundbreaking is at the former World's Fair site.
15 So I will be there and I will hand deliver this
16 letter to Mr. Toll, which says, "On behalf of the
17 Board of Directors of the Atlantic City Municipal
18 Utilities Authority, we are pleased to learn of this
19 week's groundbreaking for your retail and restaurant
20 development at the former World's Fair site. We
21 welcome your entry into Atlantic City and wish you
22 every success in your venture.

23 "The ACMUA serves highest quality
24 drinking water to the residents and businesses of the
25 City of Atlantic City. With respect to new

ATLANTIC CITY MUA

1 construction, we offer personal consultation to
2 development teams to provide connection systems
3 access to address your project's water requirements.

4 "We encourage your planning/engineering
5 representatives to meet with us at their earliest
6 opportunity to review your project plans and
7 coordinate water services for your project. Please
8 contact our Deputy Director of Operations, Mr. Garth
9 Moyle at 609/345-3315 ext. 226 to schedule a meeting
10 to review site conditions for water services.

11 "Again, please accept our warmest
12 welcome to Atlantic City and we look forward to
13 working with you." This is where we're going with
14 this. This is how we're going to reach out.

15 MR. SMITH: This is in place of the
16 other letter?

17 MR. WARD: This is a special one, but
18 the other letter --

19 MR. SMITH: This is what I'm saying.

20 MR. WARD: Yes, this is where we're
21 going.

22 MR. BOR: All the people coming in on
23 the individual lots?

24 MR. WARD: Oh, yes, in particular we
25 have at least a statement from the City that the City

ATLANTIC CITY MUA

1 will begin to, in the southeast inlet, turn over
2 City-owned property to individuals who are interested
3 in building a house and living in it for five years.
4 They will get the lot for free. So it kind of
5 signals that you're going to get some mom and pop
6 developers with one foot in Home Depot and one foot
7 in Lowe's and they may not be as experienced in big
8 development in terms of water, connection fees. So
9 especially, we want to invite them in to come in and
10 talk with us so that we can explain, and if it is
11 \$5,700 that's what the price is, but you want to tell
12 them why it's that, what it entails, and what the
13 rationale is for it.

14 MR. SMITH: As long as this replaces
15 what was there previously, this is good.

16 MR. WARD: Okay. We have spent
17 additional emphasis on the safety committee. When I
18 came here in October or November, I would see crews
19 out on the street digging in holes with bandanas on
20 and when you look at the other utilities, gas
21 company, electric company, it's very uniform,
22 everybody has on a hard hat, everybody has on head
23 protection. So we had a meeting with the -- and
24 again we've had some meetings in security when there
25 was push back. We were trying to move them toward

ATLANTIC CITY MUA

1 that. There was push back. Helmets going to fall on
2 -- we were given a lot of resistance.

3 So what we did, I had a meeting with
4 Mr. Weber and the union, and the union was talking
5 about certain things and that's when I put it on the
6 union. I said, You know what, you're sitting here
7 and you say you represent the best interest of your
8 work force and your union, but you got to get behind
9 this head policy. I'm not the one who wants to go
10 and visit your wife when you get a major head injury
11 and tell them that you're in the hospital. I don't
12 want to do that. So we finally got the union to buy
13 in on a head protection policy. We're going to
14 continue on the -- there are different kinds of
15 helmets that have to have straps and whatever.
16 Claude is authorized to outsource them, get them in.
17 But again, when we're out there in the street and
18 when we're in any situation where there is a head
19 hazard, we want to have this head protection policy
20 in place and complied with.

21 MR. SMITH: That should have been a no
22 brainer.

23 MR. WARD: In addition, this
24 information gets moved into our worker's compensation
25 carrier so they recognize that we're proactive in

ATLANTIC CITY MUA

1 terms of protecting our work force.

2 MR. BOR: Save some money.

3 MR. HILL: That's it.

4 MR. WARD: Okay. Item 5, Director's
5 Forum.

6 MR. SMITH: I don't have anything.

7 MR. HILL: I do have one thing. As
8 you're talking about some of the new relationships
9 built at City Hall with the engineering and so forth,
10 I'm not sure if this is the right time and maybe this
11 letter is enough to do it, there was a new Director
12 of, whatever her title is, Elizabeth Tenick, who came
13 from the CRDA who is going to be very responsible for
14 new developer projects. Possibly we should maybe
15 meet with her. She's just got into the office two
16 weeks ago. Do you know who she is?

17 MR. WARD: I read the article of her
18 announcement. I don't know her yet, but I will.

19 MR. HILL: Very strong, intelligent
20 woman, but she was at CRDA for a couple months and
21 she -- and then the administration brought her over
22 there. She's the head of going to coordinate all the
23 development projects for the City, so maybe it would
24 be a good way to meet her.

25 MR. WARD: We want her to know we're on

ATLANTIC CITY MUA

1 board with welcoming and providing no obstacles to
2 the water access.

3 MR. CLAUDE SMITH: In addition to the
4 head protection policy, the safety committee did meet
5 and the policy was developed and we actually
6 presented the policy to the committee. It was well
7 received. Pretty much everyone feels it's the
8 direction that we should be going in despite the fact
9 that you might have some resistance, but it's a
10 matter of changing that culture, of adapting to the
11 new culture of wearing the head protection.
12 Hopefully this particular policy we'll start to
13 implement this sometime next week by start having
14 individuals wearing the hard hats once they leave out
15 of the premises to go onto the street start working,
16 so we just wanted to make sure, you know, that the
17 Board is aware of the policy, and the same time is
18 giving us our blessings implementing this particular
19 policy.

20 MR. WARD: Directors?

21 MR. SMITH: Somebody have anything?

22 MR. MCGETTIGAN: Is the policy in here?

23 MR. BOR: Yes.

24 MR. WARD: Yes, it is, John. Thank
25 you.

ATLANTIC CITY MUA

1 MR. SMITH: Are we going into Closed
2 Session?

3 MR. HILL: We have Old Business.

4 MR. WARD: Do you have resolution 7 a
5 (1), 7 a (2)? Those would be for the engineering,
6 one is the report, and one is the inspection of the
7 Doughty Pond and Kuehnle Pond dams.

8 MR. HILL: This is for two years. We
9 always do this?

10 MR. CLAUDE SMITH: The annual report is
11 for two years March.

12 MR. HILL: 7 a (1) and (2), make a
13 motion.

14 MR. MCGETTIGAN: Second.

15 MR. BOR: Mr. Lea?

16 MR. LEA: Yes.

17 MR. BOR: Colanzi?

18 MR. COLANZI: Yes.

19 MR. BOR: McGettigan?

20 MR. MCGETTIGAN: Yes.

21 MR. BOR: Hill?

22 MR. HILL: Yes.

23 MR. BOR: Smith?

24 MR. SMITH: Yes.

25 MR. WARD: We had a meeting in the

ATLANTIC CITY MUA

1 operations and the customer service area about the
2 Aclara installation and programming, and again we
3 have a large number of meters, new meters that will
4 have to be installed, so that process is upcoming in
5 terms of the installation.

6 MR. CLAUDE SMITH: The exchange or
7 change out program, I'm not sure when that's going to
8 be established, but I know that's something going to
9 be worked on. That's a program Garth and Mike is
10 going to be working on that to actually bring that
11 forward.

12 But before we get to that particular
13 point, we discovered since we're actually doing some
14 testing on our meters with the new MTUs and the
15 Aclara system, that the meter that we're mostly
16 interested in and installing with the MTUs so forth
17 does not communicate with each other, so we're not
18 the only company, only business that's in this
19 particular predicament. There is several different
20 businesses that are in the same situation that we
21 are. Like we said, MTUs and the meters don't
22 communicate. Sensus, which is the meter company, and
23 Aclara are supposed to be working together to try to
24 resolve this problem. We don't know when it's going
25 to be resolved. Pretty much it's in both of their

ATLANTIC CITY MUA

1 hands and both of them are pretty much vying for the
2 same type of business in regards to meter reading in
3 the industry, so that's the only problem we have
4 right now in regards to this particular project and
5 going forward with it.

6 We are in the process of doing the
7 system acceptance test. We have some cases that we
8 have to actually do the test on and we'll go through
9 that process as we go along. Not necessarily sign
10 off on anything at this time, but at the same time
11 we'll definitely go through the system acceptance
12 test just to make sure what we're getting and
13 receiving actually does work and it follows the cases
14 that were presented to us.

15 MR. WARD: Questions? On the 2 million
16 gallon tank, the sanding has started?

17 MR. CLAUDE SMITH: Correct.

18 MR. WARD: And we're waiting on weather
19 to continue this job?

20 MR. CLAUDE SMITH: Correct. Their
21 intent is to probably start doing some painting of
22 the bowl this week, if the temperature and the
23 weather actually permits them to do so. Next week
24 they'll start doing the outline for the logo and
25 probably at the end of the week start painting the

ATLANTIC CITY MUA

1 logos. So we'll see what actually happens.

2 MR. BOR: That meets your time frame of
3 your commitment?

4 MR. HILL: Yes.

5 MR. CLAUDE SMITH: I think they'll
6 probably fulfill your commitment before May.

7 MR. HILL: They'll be happy if it's
8 before Memorial Day.

9 MR. CLAUDE SMITH: If the weather
10 holds, they should be able to do it.

11 MR. WARD: ASR well, any update?

12 MR. CLAUDE SMITH: ASR well, as a
13 matter of fact since we were here the last time, I
14 was able to arrange a telephone conference call with
15 the engineer as well as the contractors to at least
16 push them to start providing the products that they
17 should have actually provided some time ago. The
18 main thing that we need from them at this particular
19 time of course is the as-builts as well as the O and
20 M manuals, operations and maintenance manuals. We
21 have had them commit to start working on these
22 particular items. We will meet, we'll converse again
23 next week just to see what their progress is and
24 hopefully this will just drive them to continue
25 working on the O and M and providing back to us the

ATLANTIC CITY MUA

1 as-builts, to be placed on a CAD drawing and the
2 engineering company will provide them with the CAD
3 drawing. They will figure out pretty much how
4 they're going to put the information or if there is
5 any new information on the CAD drawings, provide them
6 back to the engineer. Once the review is done and
7 approved, they'll have the particular drawings to us.
8 So we're in the process of trying to get them
9 committed to getting the work done and providing the
10 proper materials so we can close this project out.

11 Continuing, the leak detection system.
12 Last week we had a webinar that introduced us to the
13 inner workings of the leak detection system. We were
14 able to see the locations of their mapping system,
15 the locations of the detectors or the data loggers
16 out in the field. Based on the locations and based
17 on the signals being transmitted back to the NCC,
18 they were able to detect that we had at least three
19 -- seven loggers that were detecting leaks. I think
20 what we will probably be doing is monitoring that for
21 a period of time and going out. Did they go out yet?

22 MR. MOYLE: Not that I'm aware of.

23 MR. CLAUDE SMITH: The intent was for
24 our personnel to go out and try to locate, get a
25 better location of where these particular leaks were

ATLANTIC CITY MUA

1 actually coming from. We don't have any intent to
2 moving the loggers at this time to a different
3 location. We'll just continue to monitor these
4 particular locations that we continued to have some
5 frequency of a leak and we're supposed to be having
6 some training I think sometime next month and that's
7 it.

8 Cradle project, we will be going out
9 sometime soon. The weather's starting to get a
10 little better. It's, of course we're sometime in the
11 springtime period and still early spring, just to
12 monitor and evaluate the progress of the plants that
13 was replaced in the location. Once we do that, if
14 there is any deficiencies, we'll have the contractors
15 come in and do another round of planting and then of
16 course we'll go through that monitoring process or
17 stage again. We'll more than likely go back in early
18 summer just to see if the plants have actually taken
19 and if there is any growth and just continue the
20 monitoring process.

21 MR. WARD: We had a meeting yesterday
22 in operations where Mr. Hicks indicated that certain
23 portions of the roadway that supports the 48-inch
24 main off of Delilah Road are no longer accessible.
25 This may be due to ongoing sea level rise, so this is

ATLANTIC CITY MUA

1 something that may have to be taken into
2 consideration in terms of being able to access these
3 cradles. It's an ongoing issue, but there is a
4 billboard out there that's no longer accessible.

5 MR. CLAUDE SMITH: What location is
6 that?

7 MR. WARD: I don't know. You have to
8 talk to Mr. Hicks.

9 MR. CLAUDE SMITH: Okay.

10 MR. WARD: Okay. Under Old Business,
11 budget amendment, that is the typo.

12 MS. BAZEMORE: Yes, we did a budget
13 adjustment back in December, just modifying the
14 language, and they needed additional language.
15 Department of Community Affairs called and e-mailed,
16 so we just added the language into the resolution.

17 MR. WARD: And that would be 7 c.

18 MR. HILL: Move 7 c.

19 MR. SMITH: Second.

20 MR. BOR: Mr. Lea?

21 MR. LEA: Yes.

22 MR. BOR: McGettigan?

23 MR. MCGETTIGAN: Yes.

24 MR. BOR: Hill?

25 MR. HILL: Yes.

ATLANTIC CITY MUA

1 MR. BOR: Smith?

2 MR. SMITH: Yes.

3 MR. BOR: Carries.

4 MR. WARD: Old Business, we have
5 completed the abatements. We have bids for Quazite
6 Meter Pits, Lids and extensions. That would be
7 resolution 8 b to solicit -- excuse me, agenda item 8
8 b (1) resolution.

9 MR. HILL: Move 8 b (1).

10 MR. MCGETTIGAN: Second.

11 MR. BOR: Mr. Lea?

12 MR. LEA: Yes.

13 MR. BOR: McGettigan?

14 MR. MCGETTIGAN: Yes.

15 MR. BOR: Hill?

16 MR. HILL: Yes.

17 MR. BOR: Smith?

18 MR. SMITH: Yes.

19 MR. WARD: 8 b (2) seeking to provide
20 advertisements for utilities road openings, that's
21 under 8 b (2).

22 MR. MCGETTIGAN: Move it.

23 MR. HILL: Second.

24 MR. BOR: Mr. Lea?

25 MR. LEA: Yes.

ATLANTIC CITY MUA

1 MR. BOR: McGettigan?

2 MR. MCGETTIGAN: Yes.

3 MR. BOR: Hill?

4 MR. HILL: Yes.

5 MR. BOR: Smith?

6 MR. SMITH: Yes.

7 MR. BOR: Carries.

8 MR. WARD: This morning we had the
9 meeting of the 2013 audit meeting.

10 MS. BAZEMORE: Yes. I think everyone,
11 we're going to have -- we have a resolution to
12 approve the audit.

13 MR. SMITH: Move it.

14 MR. MCGETTIGAN: Second.

15 MR. BOR: Mr. Lea?

16 MR. LEA: Yes.

17 MR. BOR: McGettigan?

18 MR. MCGETTIGAN: Yes.

19 MR. BOR: Hill?

20 MR. HILL: Yes.

21 MR. BOR: Smith?

22 MR. SMITH: Yes.

23 MR. WARD: And resolution 8 d (1) is a
24 Capital Bank account.

25 MS. BAZEMORE: We had a CD that matured

ATLANTIC CITY MUA

1 in March, for a year.

2 MR. SMITH: You skipped one, investing.

3 MR. HILL: That's where she is.

4 MR. WARD: That's where we are.

5 MR. SMITH: Okay. Excuse me, go ahead,
6 Bruce.

7 MS. BAZEMORE: We had a CD that matured
8 in March and we rolled the CD and that is for the
9 purchase.

10 MR. MCGETTIGAN: Rolled back in for one
11 year?

12 MS. BAZEMORE: Yes.

13 MR. MCGETTIGAN: Move.

14 MR. HILL: Second.

15 MR. BOR: Mr. Lea?

16 MR. LEA: Yes.

17 MR. BOR: Colanzi?

18 MR. COLANZI: Yes.

19 MR. BOR: McGettigan?

20 MR. MCGETTIGAN: Yes.

21 MR. BOR: Hill?

22 MR. HILL: Yes.

23 MR. BOR: Smith?

24 MR. SMITH: Yes.

25 MR. WARD: I might add that Ms.

ATLANTIC CITY MUA

1 Bazemore is constantly in the market looking at how
2 our funds are being managed, and when there are
3 opportunities to move from one product to another,
4 she catches it, brings it to our attention, so I want
5 to commend her on that.

6 MR. SMITH: At a girl.

7 MR. WARD: Board, you also had the
8 memorandum from Ms. Bazemore with respect to City
9 foreclosed properties. And as a result, there is a
10 total amount of \$25,773 that will have to be taken
11 off of our books.

12 MR. MCGETTIGAN: Is that legally we
13 have to take foreclosures off?

14 MS. BAZEMORE: Yes, right, exactly.
15 Once they were liens, held as municipal liens. Once
16 the City forecloses, we're required to move it off
17 the books, we won't be paid. We will not be paid.

18 MR. WARD: So hopefully the properties
19 are now available for someone to buy them and get a
20 connection.

21 MR. HILL: Can we add an item for New
22 Business, please?

23 MR. WARD: Yes. I have two to add too.

24 MR. HILL: You want to go first?

25 MR. WARD: Okay. There was a meeting

ATLANTIC CITY MUA

1 about Legionaire's disease. There had been certain,
2 I don't want to call them allegations, I want to say
3 that there was some concern and it was sort of
4 located in one particular hotel. To the best of my
5 knowledge, that there might have been a Legionaire's
6 disease problem and once it hit the City and the City
7 Health Department, the City went and organized a
8 day-long meeting, called in both State and also
9 Federal officials to sort of go over and talk. I was
10 away. We sent our plant manager.

11 As we understand Legionaire's disease,
12 it generally is linked to your air handling system
13 where water in the air handling system becomes stale
14 and perhaps there is some rust or lack of maintenance
15 in the air handling system, which creates the hazard.
16 So again, we were there. We were asked to be there.
17 We were there. The DEP continues to call Mr. Garth
18 and take up his time with respect to their need to
19 follow through, and I try to give Mr. Garth some
20 comfort that these things will pass, he'll get
21 through that. And again it seems to be focused on
22 one of the Atlantic City properties that is a very
23 old property, and hopefully we'll get through that.
24 It hasn't hit the papers as a victim.

25 And finally under my added New

ATLANTIC CITY MUA

1 Business, we did receive a security proposal from
2 Dennis Hayes. Mr. Hayes did have the opportunity to
3 do an on-site review particularly at the plant and
4 the water resources that we have on the shore. And a
5 security proposal will be evaluated at our next
6 engineering meeting.

7 MR. HILL: And we have a, what we would
8 -- I would like to put a New Business item on the
9 agenda to give our traditional honorarium to
10 Mr. Goldfine, outgoing Executive Director, for his
11 service of 33 years.

12 MR. MCGETTIGAN: Does that need a
13 resolution?

14 MR. HILL: Do we need a resolution?

15 MR. BOR: We have discussion and have
16 to define --

17 MR. HILL: Whatever it was.

18 MR. SMITH: It's a traditional amount
19 that we give everybody, that the Board members -- and
20 usually --

21 MR. HILL: Senior.

22 MR. SMITH: -- senior staff and I
23 neglected to give it to him. Bring it up and it was
24 brought to my attention that he deserves it, so I'm
25 on board with it.

ATLANTIC CITY MUA

1 MR. MCGETTIGAN: Historically it's
2 \$3,000.

3 MR. BOR: If everybody has had the
4 opportunity to discuss, it could be moved.

5 MR. MCGETTIGAN: I'll make the motion.

6 MR. HILL: Second.

7 MR. BOR: Mr. Lea?

8 MR. LEA: Yes.

9 MR. BOR: Colanzi?

10 MR. COLANZI: Yes.

11 MR. BOR: McGettigan?

12 MR. MCGETTIGAN: Yes.

13 MR. BOR: Hill?

14 MR. HILL: Yes.

15 MR. BOR: Smith?

16 MR. SMITH: Yes.

17 MR. BOR: Carries.

18 MR. SMITH: There was something else we
19 discussed.

20 MR. WARD: Mr. Bor, I just wanted us to
21 raise the question as to whether or not an honorarium
22 is legal under the guidelines of which the Authority
23 was created.

24 MR. BOR: Which particular ones,
25 because we've been doing them for many many years?

ATLANTIC CITY MUA

1 MR. SMITH: We're satisfied with the
2 legality on that. We've explored them.

3 MR. HILL: We've had these discussions.

4 MR. SMITH: We've had no problems thus
5 far, not that I'm saying it couldn't be questioned,
6 but thus far we have no problem.

7 MR. MCGETTIGAN: Closed?

8 MR. HILL: Bills, we got bills yet.

9 MR. WARD: Bills.

10 MR. HILL: Number 9 a before we go.

11 MR. WARD: That would be 9 a, bills,
12 monthly bills. Any questions?

13 MR. SMITH: Move them.

14 MR. MCGETTIGAN: Second.

15 MR. BOR: Mr. Lea?

16 MR. LEA: Yes.

17 MR. BOR: Colanzi?

18 MR. COLANZI: Yes.

19 MR. BOR: McGettigan?

20 MR. MCGETTIGAN: Yes.

21 MR. BOR: Hill?

22 MR. HILL: Yes.

23 MR. BOR: Smith?

24 MR. SMITH: Yes.

25 MR. BOR: Five minutes?

ATLANTIC CITY MUA

1 MR. SMITH: Yes, five minutes and
2 Closed Session.

3 (Closed Session from
4 11:05 a.m. to 12:00 p.m.)

5 MR. WARD: We're back in Open Session.
6 We've just concluded Executive Session. And the
7 first item discussed was litigation, personnel,
8 contract negotiations and security.

9 Mr. Weber discussed his ongoing
10 discussions with unions, and recognizing that Rafael
11 Valentin represents all of the unions and in
12 particular, all of the union agreements are up.

13 There was also discussion about a
14 certain case involving an employee last named Morton,
15 in which there is currently an EEOC matter, which
16 concerns a number of allegations with respect to
17 position classification, and the potential that that
18 case could open up other classification issues at
19 least with respect to two other employees. Mr. Weber
20 emphasized that he's still in a fact-finding mode
21 with respect to this matter. And it involves the New
22 Jersey Civil Service, as well as the ongoing
23 complaint that has been filed in EEOC.

24 With respect to employee discipline, we
25 reported, as well as Mr. Weber certified through the

ATLANTIC CITY MUA

1 discussions with the union that we have no major
2 employee disciplines coming forward. The culture
3 within the work force has begun to take shape such
4 that disagreements are able to be resolved without
5 major formal disciplinary issues and we're hopeful
6 that we can continue to inspire the work force
7 through continued discussion, training and so forth
8 to maintain a modicum of team work within our crews.

9 We continued on with the discussion of
10 the Borgata connection fee lawsuit. Mr. Bor
11 indicated the meeting with the representatives of
12 Borgata, which we've begun to talk about the matter
13 and how it can be resolved amicably. Part of that
14 discussion included how certain valves can be
15 upgraded up to standard, which would benefit the
16 Borgata, and what would be the cost and how that cost
17 could impact upon a settlement direction. Mr. Moyle
18 will continue to work with and get the results of a
19 contract assessment from Mr. Acker, Kevin Acker over
20 at the Borgata, and we should have further update on
21 that.

22 The Board continued to discuss a matter
23 that appeared before the personnel committee with
24 respect to a request by Mr. Richard Cole to review
25 his salary. Mr. Cole had asserted that his salary

ATLANTIC CITY MUA

1 should be increased along with the appointment, the
2 former employment of another individual that had
3 happen years ago. As a result of a review with
4 personnel and the personnel committee meeting, it was
5 concluded that Mr. Cole is currently being
6 compensated at the appropriate salary for his
7 position, time and grade and so forth. And a letter
8 will be forwarded to Mr. Cole to advise him that his
9 request has been thoroughly reviewed through
10 committee and all the way through the Board.

11 The next was the matter with regard to
12 Ms. Barbara Edwards. Ms. Edwards was slated for a
13 termination hearing in December of last year. That
14 hearing was aborted with an agreement executed by
15 Ms. Edwards that she would resign effective June the
16 1st of 2014. That agreement also included a
17 paragraph which allowed for a mutual amendment of
18 said agreement, which Ms. Edwards appealed to the
19 Executive Director, that she now wanted to stay and
20 withdraw her resignation. Ms. Edwards was advised
21 that she had to put her concerns in writing, which
22 she did. And Ms. Edwards information was reviewed by
23 the personnel committee. Personnel committee
24 recommendation to the Board was that Ms. Edwards
25 would be offered the opportunity to exit the work

ATLANTIC CITY MUA

1 environment as soon as practical and be able to earn
2 her compensation throughout the period of her
3 resignation to June the 1st. And the Board agreed
4 that Ms. Edwards would be offered the opportunity to
5 make an early exit. And Mr. Weber will be providing
6 the appropriate documentation for Ms. Edwards'
7 consideration. Board also will now go to the
8 executive contracts.

9 MR. BOR: Yes, the matter for the Board
10 to consider is the resolution that members have
11 received, agenda item 10 a (1), regarding the
12 executive contracts of Mr. Moyle, Ms. Bazemore and
13 Mr. Ward. If there is any questions about those, I
14 would be glad to entertain them. The contracts are
15 consistent with those that have been given previously
16 to the same exact years, including Mr. Goldfine, I
17 believe, and any modifications at this point inured
18 to the benefit of the Authority. And I'll be glad to
19 answer any questions, and if not, a motion could be
20 entertained.

21 MR. HILL: Make a motion to accept.

22 MR. MCGETTIGAN: Second.

23 MR. BOR: Mr. Lea?

24 MR. LEA: Yes.

25 MR. BOR: Colanzi?
